GENUINE REVERE QUALITY

From Our Home to Yours

Welcome to the Revere family of premium vinyl windows. Genuine American spirit and time-honored craftsmanship are at the heart of our commitment to quality. It's what makes our windows among the best in the industry, and our service second to none.

Revere windows are custom-made to your exact specifications and backed by more than three decades of window manufacturing expertise. Engineering, innovation, rigorous testing and stringent quality control are just a few ways that we turn cutting-edge technology into superior windows and satisfied customers. When you choose Revere windows, you can be assured of the highest levels of performance, beauty and value.

BERKSHIRE™ SINGLE HUNG VINYL REPLACEMENT WINDOWS

Quality-crafted Berkshire windows boast a fusion-welded vinyl sash and main frame for added strength and structural integrity. Metal reinforcement at the locking rail and multi-chambered extrusions further add to Berkshire's durable construction, while a heavy-duty balance system ensures easy operation of the sash.

ENERGY SMART

Berkshire windows are precision-engineered to provide year-round energy savings. Double-barrier fin seal weatherstripping, insulating air chambers, protective bulb seal and the PPG Intercept™ Warm Edge Spacer System help block air infiltration and reduce heating and cooling costs.

EASY UPKEEP

You can forget about scraping paint and replacing caulking. Berkshire's solid vinyl construction won't rot, split, corrode or pit like painted windows, and won't swell or warp from exposure to moisture.

MAXIMIZE YOUR ENERGY SAVINGS!

For even greater energy savings, upgrade your Berkshire windows with our BarrierXP™ insulating glass package. BarrierXP combines Guardian Acclimate™ RLE (Residential Low-E) glass and argon gas, along with the PPG Intercept Warm Edge Spacer System, to achieve the ENERGY STAR® program rating for all U.S. climate zones.

ENERGY STAR is a government-backed voluntary partnership program sponsored by the U.S. EPA and the U.S. DOE, which promotes environmental protection and superior energy efficiency in products, buildings and homes.

- An average household spends more than 40% of its annual energy budget on heating and cooling costs. **You can save up to 15% of your total energy bill with ENERGY STAR qualified windows.**

DETAILS MAKE THE DIFFERENCE

- 1 Built for lasting performance using virgin vinyl (PVC) resin; solid vinyl color won't chip, peel, crack or warp.
- 2 Main frame jamb depth dimension of 3-1/4" allows for easier replacement installations.
- 3 Multi-chambered sash and main frame provide insulating air spaces for increased thermal efficiency.
- 4 Insulated glass unit with sealed air space between the panes of glass helps reduce transfer of heat and cold.
- 5 PPG Intercept™ Warm Edge Spacer System saves energy by insulating the frame and edge of glass for superior thermal performance and longevity.
- 6 Interlock at sash locking rail offers increased comfort and security.
- 7 Metal reinforcement for added strength at the locking rail.
- 8 Easy-to-operate fully extruded lift rails.
- 9 Protective bulb seal at sill helps block out air and water infiltration.
- 10 Sloped sill for classic beauty, easy cleaning and prevention of water accumulation.
- 11 Hidden screen track creates a clean-line appearance.

ADDITIONAL FEATURES

- Fusion-welded sashes and main frame for strength and rigidity.
- DuraLift™ block and tackle balance system for smooth operation of sash.
- Tilt-in bottom sash for easy cleaning from inside the home.
- Double-barrier fin seal weatherstripping at the sash sides helps block air, water and dirt infiltration.
- Beveled exterior profile creates a handsome appearance.
- Half screens are standard.
- Available in White or Beige in single hung, double hung, slider and picture window configurations.

A WISE INVESTMENT

Like many people, your home may be one of your most important investments. Adding beautiful, low-maintenance windows can improve the "curb appeal" of your home while boosting its value. In most cases, you can expect to recover more than half of the cost of your replacement windows when it's time to sell.*

*The national average of the cost recouped is 89.6% for mid-range windows, based on *Remodeling* magazine's "2005 Cost vs. Value Report," 11/05 issue.

A LIFETIME OF PROTECTION

Berkshire single hung windows carry a lifetime limited warranty—your assurance of lasting performance and genuine value. More than three decades of window manufacturing expertise stand behind our windows. When it comes to performance, quality and value, you can depend on Revere for complete satisfaction.

For complete warranty information, including limitations, ask your dealer for a copy of the Revere replacement window warranty.

GLASS BREAKAGE WARRANTY

For added protection, ask your dealer about our optional glass breakage warranty.
